IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and/or injury to persons, including the following:

READ ALL INSTRUCTIONS.

- Do not touch hot surfaces: use handles or knobs. Use potholders when removing cover or handling hot containers.
- To protect against electrical shock, do not immerse cord, plug or base unit in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use. Allow to cool before cleaning.
- Do not operate appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner. Return appliance to an authorized service facility for examination, repair or adjustment.
- The use of accessory attachments not recommended by the appliance manufacturer may cause injury.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Extreme caution must be used when moving an appliance containing hot food, water, or other hot liquids.
- Do not use appliance for other than intended use.
- Lift and open cover carefully to avoid scalding, and allow water to drip into unit.
- To disconnect, turn control to Off, then remove plug from wall outlet.
- Bowl containers are designed for use with this appliance only. They must never be used on a range top. Do not set a hot container on a wet or cold surface. Avoid sudden temperature changes, such as adding refrigerated foods into a heated Bowl. Do not use a cracked container.
- Plug into a standard AC electrical outlet. Do not use any other electrical outlet.
- This appliance is for HOUSEHOLD USE ONLY. Use for anything other than intended will void the warranty.

SAVE THESE INSTRUCTIONS

POLARIZED PLUG

This appliance has a polarized plug — one blade is wider than the other. As a safety feature, this plug will fit into a polarized outlet only one way. If the plug does not fit fully into the outlet, reverse it and try again. If it still does not fit, contact an electrician. Do not attempt to defeat this safety feature.

ELECTRICAL CORD

A short power-supply cord is provided to reduce safety hazards that may occur with a longer cord. If more cord length is needed, an extension cord with a polarized plug may be used. It should be rated not less than 10 amperes, 120 Volts, and have Underwriters Laboratories listing. When using a longer cord, be sure it does not drape over a working area or dangle where it could be pulled on or tripped over. Handle cord carefully for longer life; avoid jerking or straining it at outlet and appliance connections.

SOFT-GRIP HANDLES

NOTE: The rubberized soft-grip is free of natural rubber and latex. It is safe for use by individuals allergic or sensitive to these materials.

SLOW COOKER PARTS

BEFORE FIRST USE

1. Carefully unpack the Slow Cooker.
2. Wash the interior of the Stoneware Bowl and the Glass Lid in warm, soapy water. Rinse well and dry thoroughly. You may notice small “pits” or “dings” in the stoneware surface. These are not defects but a natural part of the stoneware process and are normal.
3. Wipe the interior and exterior surfaces of the Base with a soft, moist cloth to remove dust particles that may have collected during packing and handling. **NEVER IMMERSER THE BASE, STONEWARE BOWL, CORD, OR PLUG IN WATER OR ANY OTHER LIQUID.**

USING STONEWARE BOWL & LID

IMPORTANT: All glass and glass ceramic materials are **BREAKABLE**. Always handle the Stoneware Bowl and Lid carefully. Avoid hitting them against a faucet or other hard surface. Accidental breakage from impact is not covered by the warranty. For maximum benefit from the Stoneware Bowl and Lid, follow these tips:

- To avoid damage to the interior of the Stoneware Bowl, always use utensils made of plastic, rubber, or wood. **DO NOT** use metal utensils, as they may leave grey marks or may scratch the cookware.
- Do not touch the sides of the Slow Cooker Base while food is cooking. Always use potholders or oven mitts when removing the Lid or the Stoneware Bowl from the Base after cooking. To avoid burns from escaping steam, tilt the Lid away from your hands and face when removing it.
- Do not set the Stoneware Bowl directly on a countertop or table; use a trivet or hot pad.
- Do not pour cold water into a hot Stoneware Bowl.
- **NEVER** heat the Stoneware Bowl when it is empty.
- Keep the Lid away from a broiler, microwave browning element, toaster oven coils, hot stovetop burners, oven heat vents or any other direct heat source. **DO NOT PLACE A HOT LID** on cold or wet surfaces, as this may cause it to crack or shatter.
- If the Lid becomes cracked, do not use it. Discard it and get a replacement. Damaged items may break without warning.

HOW TO USE

Using a Slow Cooker is easy but different from conventional cooking. Follow the recommended guidelines in this book. Times listed in each recipe are approximate and should serve only as guidelines.

1. Follow the recipe by filling the Bowl with food and ingredients. Place the Bowl into the Base, cover it with the Lid, and plug the unit in.
2. Turn the Control Dial to Auto or High and note the time the Cooker started.
3. Be sure to turn the Control Dial to Off after cooking.

CLEANING & STORAGE

1. Unplug the unit and allow it to cool before cleaning.
2. Wash the Stoneware Bowl and Lid in warm, soapy water. Rinse and dry. If food sticks to the surface, fill the Bowl with warm, soapy water and let it soak for a while before cleaning. Do not submerge the Stoneware Bowl or let it sit in standing water as it may absorb water through the unglazed bottom. Absorbed water can lead to uneven temperatures when heated and potential cracking.
3. If scouring is necessary, use a nylon pad or brush with liquid detergent or non-abrasive cleanser on the Bowl. Both the Bowl and Lid are also dishwasher-safe.
4. Wipe the Base with a soft, damp cloth or sponge. NEVER IMMERS THE BASE IN WATER.
5. Be sure all parts are clean, cool, and dry before storing. Store the unit in a clean, dry place. Use the cord wrap at the bottom of the Base to store the cord.

HELPFUL HINTS

1. Be sure to follow proper food safety practices when using this slow cooker.
2. The slow cooker should always be at least $\frac{1}{2}$ full for best cooking results. It should never be more than about $\frac{3}{4}$ full (18 cups total), or about 1 $\frac{1}{4}$ -inches from the top rim.
3. Never store foods to be cooked the next day in the Stoneware Bowl in the refrigerator overnight. It will take too long to heat the Bowl up, prior to the food starting to cook.

4. When cooking on Hi setting, periodically remove the lid and stir ingredients for more even heating and cooking. Use Hi setting for shorter cooking times, and when you plan on being at home.
5. Use Auto setting for longer cooking times (7-8 hours), and when you will not be at home. On Auto, the Slow Cooker starts out on a high temperature, and then automatically reduces to a lower temperature after about 2 hours.
6. Longer cooking times tend to evaporate some of the liquid in recipes and if foods are allowed to cook too long, foods may tend to taste dry (like a pot roast allowed to cook more than 8 hours), and stick/burn onto the bottom of the Bowl.
7. Soups are a natural in a slow cooker. They can simmer away, blending flavors and tenderizing dried beans and meats. It may be necessary at times to add additional liquid (broth, milk, water) to thin soup or stew prior to serving.
8. To keep foods warm after cooking, turn control to Keep Warm setting. To avoid drying out foods, do not keep foods on this setting for more than 2 hours.
9. It is not recommended to reheat food in the slow cooker.
10. The Lid on the Stoneware Bowl does not have a tight fit. Spattering and condensation may be noted at times.

RECIPES

Recipe Tips

1. The recipes included here have been designed to work in this 6-quart slow cooker. Use them as a reference to adapt your own favorite soup, stew and chili recipes.
2. When adapting your own recipes, be sure to add enough liquid to keep foods moist. Foods cook best when submerged below liquid.
3. Roasts and hams up to 5 pounds can be cooked in the Slow Cooker. Do not cook whole poultry. Remember that foods cut into smaller pieces will cook faster than whole roasts.
4. Less tender cuts of meat are best suited for slow cooker preparation; they need longer cooking times and supply more moisture.
5. Skim off fat prior to serving sauces. Sauces can be thickened prior to serving if desired. Just transfer sauce to a saucepan and heat on range surface unit. Mix 1-2 tablespoons all-purpose flour with a little water and then add to sauce. Stir constantly until sauce thickens.

Split Pea Soup

<i>1½ pounds dried split peas</i>	<i>1 teaspoon chervil or rosemary</i>
<i>2 cups chopped ham</i>	<i>1 teaspoon summer savory</i>
<i>2 medium onions, chopped</i>	<i>12 cups chicken broth</i>
<i>2 stalks celery, chopped</i>	
<i>¼ cup chopped parsley</i>	<i>2 cups milk</i>

1. Combine split peas, ham, onion, celery, parsley, seasonings, and chicken broth in Stoneware Bowl. Stir to thoroughly mix. Position Stoneware Bowl in Slow Cooker Base.
 2. Cover and turn to Hi or Auto Setting.
 3. Cook for 5 hours on Hi, or 8 to 9 hours on Auto.
 4. Prior to serving, stir in milk and blend thoroughly to heat.
- Makes: 10 (1½-cup) servings.

Tasty Bean Soup

<i>1½ pounds boneless pork chops, trimmed of fat, cut into ½-inch cubes</i>	<i>1 teaspoon salt</i>
	<i>12 whole cloves</i>
	<i>2 bay leaves</i>
<i>1½ pounds dried 16 bean soup mix*</i>	<i>7 cans (14½-ounce each) beef broth</i>
<i>2 carrots, sliced</i>	
<i>2 stalks celery, sliced</i>	
<i>1 medium onion, chopped</i>	<i>2 cups water</i>

1. Combine pork chop cubes, dried beans, carrots, celery, onion, salt, cloves, bay leaves, and beef broth in Stoneware Bowl. Stir to thoroughly mix. Position Stoneware Bowl in Slow Cooker Base.
2. Cover and turn to Hi or Auto setting.
3. Cook for 5 hours on Hi, or 7 to 8 hours on Auto. About one-half hour before serving, stir in 2 cups water. Stir to mix and heat.

Makes: About 12 (1½ cups) servings.

*No need to soak or precook beans.

Mexican Corn Soup

Soup:

<i>1 pound dried small red beans*</i>	<i>2 teaspoons ground cumin</i>
<i>2 large onions, coarsely chopped</i>	<i>1 teaspoon red pepper flakes</i>
<i>3 heaping tablespoons minced garlic</i>	<i>¼ teaspoon cayenne pepper (optional)</i>
<i>3 medium carrots, thinly sliced</i>	
<i>3 stalks celery, sliced</i>	
<i>3 red or green peppers, diced</i>	To Serve:
<i>6 cans (14½-ounce each) vegetable stock or broth</i>	<i>Hot cooked white rice</i>
<i>5 cups frozen corn, thawed</i>	<i>Nonfat yogurt</i>
	<i>3 tablespoons minced cilantro leaves</i>

1. Combine all soup ingredients in Stoneware Bowl. Stir to thoroughly mix. Position Stoneware Bowl in Slow Cooker Base.
2. Cover and turn to Hi or Auto setting.
3. Cook for 5 hours on Hi, or 7 to 8 hours on Auto. Prior to serving, stir in additional vegetable broth, if desired.
4. Serve over cooked rice, with dollops of yogurt and cilantro leaves on top.

Makes: About 11 (1½ cup) servings.

*No need to soak or precook beans.
